Profile

Test Automation Engineer with 4+ years of experience in quality assurance and test automation for complex enterprise applications in the insurance sector. Experienced in UI, API, backend, SAP GUI, and end-to-end testing, with hands-on expertise in building and maintaining reusable automation solutions, data-driven testing, and CI/CD-integrated test execution.

Work Experience

Software Test Engineer, ETB-Group — Client: HDI Insurance Germany 06/2022 – Current | Turkey

- Designed, maintained, and enhanced automated test solutions for complex enterprise insurance applications covering SAP GUI, web interfaces, APIs, and document/PDF workflows.
- Developed reusable and maintainable test automation components using UFT and VBScript, including data-driven and parameterized test scenarios for large-scale regression testing.
- Integrated and executed automated smoke and regression tests within GitLab CI/CD workflows, analyzing test results and providing fast feedback on software quality and release readiness.
- Executed and managed approximately 5,000 test cases per bi-weekly sprint across functional, smoke, GUI, end-to-end, API, and regression testing.
- Identified, analyzed, and documented software defects and managed their lifecycle using HP Octane and HP ALM, collaborating with development and business teams through resolution.
- Performed API and backend testing using SoapUI, XML, and SQL, validating data consistency and communication across integrated enterprise systems.
- Contributed to test strategy, test coverage, and quality improvement discussions across multiple cross-functional Scrum and Kanban teams.
- Worked closely with developers, business analysts, and other stakeholders to clarify requirements, identify testing risks, and design effective test scenarios.

Certifications

ISTQB® Certified Tester Foundation Level (CTFL)

Skills

Test Automation — UFT (VBScript) · Playwright (TypeScript) · Selenium (Python) · Karate (API) · SoapUI

Programming & Scripting — TypeScript / JavaScript · Node.js/npm · VBScript · Python · SQL · XML

Test Automation Frameworks — Framework Design & Maintenance · Reusable Test Components · Data-Driven Testing · Parameterized Testing

Testing — UI Testing · API Testing · Backend Testing · E2E Testing · Regression Testing · Smoke Testing · Integration Testing

CI/CD & Version Control — GitLab CI/CD · Git

Test Management & Defect Tracking — HP ALM · HP Octane

Quality Engineering — Test Strategy · Test Coverage · Requirements Analysis · Risk-Based Testing · Scenario Design

Ways of Working — Agile · Scrum · Kanban · Cross-functional Collaboration

Education

Software QA Engineer Trainee, Astound Commerce 02/2022 – 05/2022 | Turkey

React.js Web Development Bootcamp, Front-end Development, Re:coded 01/2022 – 05/2022

Data Analytics (Organized in collaboration with Trendyol), Patika.dev 02/2022 – 03/2022 | Turkey

Bachelor's Degree in Geomatics Engineering (100% English) 09/2013 – 06/2018 | Turkey
Izmir Katip Celebi University

Languages

English — C1 / Professional Working Proficiency

German — Conversational
